Tehas "Tarbeklaas" toodab puhutud, vabalt vormitud ning pressitud lauanõusid, mida võib kasutada mitmeks otstarbeks nii argipäeval kui ka pidulikel juhtudel. Esemed valmistatakse värvitust või värvilisest klaasist dekoreeritult lihvimis-, graveerimis- ja klaasimaalitehnikas. 1983. aastal lõpetatakse värvilisest ja suitsuklaasist esemete tootmine ning ühtlasi pressitud toodete valmistamine, samal ajal alustatakse lk. 32...35 toodud joogiklaaside komplektide tootmist. Püüame rahuldada ka kõige nõudlikuma ostja soovi.

• tarbeklaas •

Завод "Тарбеклаас" выпускает выдувную, произвольно сформованную и прессованную посуду, которую можно использовать в различных целях не только в будни, но и в праздничные дни.

Посуда изготавливается из бесцветного или цветного стекла с декорированными поверхностями в технике шлифования, гравировки и росписи по стеклу.

В 1983 году завод прекращает выпуск изделий из цветного и дымчатого стекла, а также прессованных изделий. Одновременно начинается выпуск комплектов для напитков, приведенных на стр. 32-35.

Мы стараемся удовлетворить спрос и самых требовательных покупателей.

Glass-Works "Tarbeklaas" manufactures off-hand shaped and pressed serviceable glass for everyday use and festive occasions.

The glasses are made of white or tinted glass and grind, engrave or paint finished.

From 1983 on the manufacturing of tinted and smoked glass, and also pressed serviceable glass will be stopped, simultaneously we begin manufacturing the stemware shown on pp. 32...35.

We try to satisfy the most particular demands of our customers.

• tarbeklaas •

Die Glashütte "Tarbeklaas" stellt mundgeblasenes, freigeformtes und preßgeformtes Tafelgeschirr her, sowohl für den alltäglichen Gebrauch als auch für einen festlich geschmückten Tisch.

Die Gegenstände werden aus weißem oder farbigem Glas gefertigt und durch Schleifen, Gravieren und Glasmalerei dekoriert. Ab 1983 wird die Herstellung vom Tafelgeschirr aus farbigem und Rauchglas ebenso die von gepreßtem Tafelgeschirr eingestellt. Gleichzeitig beginnt die Herstellung von den auf Seiten 32 bis 35 abgebildeten Trinkbechern.

Wir sind bemüht, den höchsten Anforderungen unserer Abnehmer entgegenzukommen.
